EDUCATION

B.Tech — Computer Science & Engineering

Indira Gandhi Delhi Technological University for Women (IGDTUW)

BATCH OF 2029

CSE DEPARTMENT

PROFILE

Computer Science student with foundational and growing knowledge in Python, Kotlin, JavaScript, HTML, CSS, XML, C, Java, and R. Experienced in front-end development, UI design via Figma, and backend architecture. Actively involved in technical societies, event management, and research-driven work. Eager to apply programming skills through impactful internships and real-world projects.

TECHNICAL PROJECTS

HostellHive Web App

HTML · CSS · JavaScript

Co-built a web platform to digitize student room allocations and maintenance logs.

FariScan AI Bias Detector

Python · Backend

Engineered robust backend architecture and logic rules to evaluate structural bias in large language models.

NYXA Web Application

Figma · Front-End

Structured seamless user flows in Figma and translated high-fidelity frames into a responsive front-end build.

Portfolio & C Calculator

C · UI Development

Built a terminal calculator using procedural C concepts alongside a personal portfolio website.

EXPERIENCE & ACTIVITIES

- Youth Parliament — Participant

Debated national policy issues at a parliamentary forum, strengthening public speaking and critical argumentation skills.
- Event Management & Logistics Coordinator

Coordinated logistics and schedules for multiple programs, ensuring smooth and timely execution of events.
- School Assembly Organiser & Project Lead

Led school assemblies and multiple classroom projects and competitions, demonstrating leadership and team collaboration.
- Community Service Volunteer

Contributed to community organisations and outreach events focused on skill-sharing and social impact.
